EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Adrienne Young on September 23, 2004.

The application has been amended as follows:

In the Claims:

Claims 16-19 and 26-28 are canceled.

Allowable Subject Matter

Claims 1-15 are allowed. Claims 1 and 13 are generic claims for the species. Accordingly, all species in the election requirement are rejoined.

The following is an examiner's statement of reasons for allowance: Of interest is the patent to Kensey et al., US 5,676,689, especially figure 26 which shows an enlarged distal tip. However, Kensey does not consider hydrating the collagen and does not show anything that could function as a hydration chamber. Further, Kensey does not show a hydration chamber having a distal end configured to be connected to the proximal end of the introducer sheath and a proximal end configured to be connected to a syringe.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

Applicant may want to submit a complete new set of formal drawings with the corrections to avoid confusion at the printer.
